

**State Project No. 713-20-0116**  
**Red Fox Lane Bridge**  
**Evangeline Parish**  
**(Estimated Construction Cost: \$298,175.50)**

The existing structure is structurally deficient with a load posting of 10-15 tons. It serves as a connector road to LA 13; its loss would inconvenience the public by adding additional travel miles.

This type of project assists smaller contractors in meeting equipment loan payments and payroll overhead charges.
